

## **PETER RAFELSON, *President***

While born in New York City, Peter Rafelson grew up in the heart of the entertainment industry in Los Angeles. As the son of Hollywood legend **Bob Rafelson**, Peter spent his formative years in the film industry. As a young adult Peter blended his love of film and music, studying film composing at graduate music schools in both Los Angeles and Colorado. Peter established himself early on as a writer and musician, working with such music greats as **Jackson Browne** and **Elton John**. Peter has written and produced many successful songs, appearing on over 300 million records sold, including the # 1 hit "**Open Your Heart**" for **Madonna** (27 million), as well as top ten singles for **Stevie Nicks**, **Jane Wiedlin** of the **GoGo's** and **Britney Spears**. In addition to scoring and composing, Peter has acted in over ten feature films, including Alan Parker's "**FAME**" and films by director **Henry Jaglom**. Peter has also been involved in the theater in the West End of London, writing and directing what has been called the first cyber-culture musical, entitled "**VOYEURZ**", produced by Michael White (The Rocky Horror Show). Peter also produces and consults for many new technology and media companies. His consulting company, Rafelson Media Company, has clients, which include such industry giants as **Microsoft**, **Apple**, **Toshiba** and **Compaq**.

Peter co-produced "Dreams" for **David Foster**, a #1 International single, performed by **The Corrs** and released on both **Fleetwood Mac's** "Legacy" tribute album and on **The Corrs** own album, "Talk on Corners". The UK release was the most successful album of the year outside the US, as it remained in the UK top five for over ten months and sold over 12 million records. Peter also remixed The Corrs' first US single for **David Foster's** 143 Records. Peter is currently scoring films, signing and producing recording artists for his own label, RM Records and continues to develop new projects for the film, TV, and record industries. Peter now works out of his own recording studio, **RM Studios**, and heads his own publishing company, **Rafelson Music**. Rafelson travels regularly to Asia on diplomatic missions to develop business relations for the entertainment industry. He was a staff producer for **2K/Virgin Records**, an **EMI** record label, for three years. Peter created and produced the original TV show, "**Afterthoughts**" for **Bravo**. His company, **Rafelson Media** has recently announced a deal to produce a slate of feature films for **Parallel Media**, the first of which scheduled to go into production in 2012. He is also scheduled to produce a 58 Million dollar independent CGI animation feature in 2012.

**RMC** is an international company expanding business into the global marketplace-- both for our company and clients, as well. RMC has developed a strong foothold in the Asian marketplace. Our stated goal is to create synergies between our company and international clients, in order to help generate revenues never before seen in North America. We are one of few media companies, which have employees from Asia and the United States-- at the decision-making level. Because of this hybrid approach, we have been able to swiftly navigate the entertainment industry on both sides of the spectrum.

Over the past four years, **RMC** has steadily built the most successful American production company in all of East and Southeast Asia, having sold over 118 million records. We have developed unparalleled partnerships with the largest Asian entertainment companies, to include **Yedang**, **SM Entertainment** and **Emperor**. RMC is proud to be the first American company to partner with **CJ Media**, the leading Korean entertainment conglomerate, with international exports throughout the region, including exclusive distribution for **Dreamworks Entertainment**. **CJ** owns nine television channels and the largest theater chain in Korea. **CJ Media** has joined **RMC** with a common goal to grow Asian pop culture in the United States. **RMC** is the exclusive digital distributor for **CJ's** 35,000 title catalog.

**RMC** is rapidly closing the gap between America and the international marketplace. In May of 2004 **RMC** propelled their first artists to the top of the Billboard Charts. Within a few short weeks, **Sun** landed the #1 slot on the Dance Chart, with the smash single, "One With You." This was not only a historic moment for her native Singapore, but for all of Asia. **Rafelson** produced **Erika Jayne's five consecutive #1 Billboard Dance hits** creating the **first time debut indie artist with five or more**. Since launching **Rafelson Music**, the Peter has landed 26 #1 credits including the recent TV show soundtrack for **GLEE** and many top-tens in Billboard Magazine. Rafelson has racked up twenty-three #1 hits in all. Most recently, **Jason Derulo**, **Robin Thicke**, and both **Lady GaGa's** and **Beyoncé's** current #1 albums were mixed and finished at **Rafelson's RMC Studios**. Peter most recently wrote, mixed and produced "**Can't Stop Loving You**" on **David Guetta's** artist, **Chris Willis** at **RMC Studios**.
